## Information on services Hungary

### General information about Hungary

#### Welfare benefits

Individual benefits are not available in Hungary. When a person returns to their family the head of household makes an application to Social services on the basis of additional household costs.

Individuals with no family are accommodated in Social Service night shelters and are therefore not entitled to financial assistance.

#### The Police

As in all A10 countries the police have a very harsh approach to rough sleepers. Police may be more sympathetic to older homeless people and those who have lost their home and may be willing to give out information about charities or day centres.
